

# PRESERVATION PROJECT

WILLIAM PRESTON LANE, JR. MEMORIAL  
**BAY BRIDGE**

## Demolition / Installation

- Full overnight closures of the westbound bridge
  - Two-way traffic on eastbound span
- Hundreds of complex tasks must be coordinated each night
- Bridge is re-opened by rush hour the next morning
- Westbound span is scheduled to be closed each night as early as 8 p.m.
  - Traffic is paused for about 15 minutes, as the westbound span is closed and traffic redirected to the eastbound span throughout the night
  - Span reopened by rush hour
- The construction team and equipment will mobilize from the Eastern and Western shores onto the bridge
  - The construction team will install one new deck segment each night
  - The team will have two full-time crews – a removal/replacement crew and a completion crew
