

*Spike says, "Stay Safe on the Bay Bridge."*

**Just follow these simple rules –**

- **SLOW DOWN.** Obey posted speed limits and use headlights in two-way traffic.
- **Keep a safe distance** between your vehicle and the vehicle in front of you.
- **Keep your eyes on the road.** DO NOT use cell phones or text message while driving.
- **Follow overhead lane signals.** DO NOT change lanes while traveling the bridges.
- **Make sure your car is "road ready."** One disabled vehicle can cause extensive delays.

*Don't wing it. Plan ahead.*
