

PRESERVATION PROJECT

Re-Opening to Traffic

- Both spans of the Bay Bridge are planned to be open for morning rush-hour traffic
- Lanes of the westbound span may be closed as needed Monday-Thursday from 9 a.m. to 2:30 p.m. for project work other than installing new deck segments
- Steel plates are placed across travel lanes so the bridge can reopen to traffic each morning

Potential Late Openings

- The numerous complex tasks that must be performed every night pose challenges that could prevent the bridge from fully opening for morning rush-hour traffic. In such an instance, information would be:
 - Reported to area media and traffic services
 - Posted on 1-877-BAYSPAN (229-7726)
 - Sent as an email alert from baybridge.com
